HONGKONG OFFICE: 14. DES VŒUX ROAD CH LONDON OFFICE: 131, FLEET STREET, E.C.

Hongkong, 19th November, 1902.

THE death of Mr. Evans, victim of the outrage at Cha Si, neur Tiger Island, on the West River, on the 12th instant, tragic as it is, serves an useful purpose in calling attention in the most vivid manner to the disgraceful insecurity not merely of property but also of life within a short distance of Canton. . An Englishman, employed at the British Consulate at Canton, has been wantonly murdered for the simple reason that he was a foreigner (since the native crew of the junk was spared) by some twenty ruffians in search of plunder. Nothing but Government receive a handsome increase of the pleas of Mr. Evans's native companions prevented his imminate body from being thrown overboard on the night of the outrage; he lived therefore until Sunday morning, when he expired in the Canton succumbing as was but natural for a man 3 years old to his six wounds. Among the numerous cases where Europeans had suffered by the criminality of Canton and West River pirates of late years, this is undoubtedly the worst, and it calls for the most vigorous action of the British Government. The monstrous state of affairs has been tolerated too long. Since we wrote on this subject last Saturday, further information has reached us that river trade beyond merchants decline to take what is scarcely the chance, rather the certainty, of being plundered. The native officials are supine and helpless. Now as long ago as 1899, the local | apers, the merchants of Hongkong | Chamber in such emergencies.

petitioned H.E. the Governor, representing the serious losses caused by the ravages of the pirates. Mr. Bax-IBONSIDE, who was then Acting British Minister at Peking, in commenting to the home government on this petition, drew attention to the lack of any action on the part of the Canton authorities and mentioned a scheme proposed to the Vicerov there by Mr. WATLES, Instructor at the Whampoa Naval and Military School, that a flotilla should be formed of five of the torpedo-boats then lying idle at Whampoa, under the joint command of himself and a Chinese military official, which should scour the waters in quest of pirates. The Viceroy was interested in the scheme, but Chinese jealousy brought about its rejection, and what measures were taken against the pirates by La Hung-chang were of a different character, principally in the direction of severer punishments for such of the robbers as were captured. Operations were carried on by land rather than by water, and no permanent success was achieved. At the present moment piracy is once more as bad as it over was in the Canton delta and beyond, in spite of the presence of two British gunboats on the West River. The British mayal authorities here in 1899 expressed the opinion that "the duty of policing the river clearly belongs to China," and this cannot be disputed. Whatever assistance may be given by British and other foreign vessels, the main responsibility rests with the Canton authorities. As we have said, these are supine and helpless. And yet there are still lying at Whampon the nine torpedo-boats which, though of obsolete Manage our Factories, and their practical Viceroy, but also, we believe we are correct

pattern now, are quite capable, experts declare, of fiver work under capable commanders. The scheme for their utilisation in such work which we mentioned above not only commended itself to the Chinese in saying, was approved by Admiral Sir E. H. SEYMOUR, the Commander-in-Chief of the British squadron on this station. It is a question which calls for consideration whether the revival of some such proposa should not be urged. The present state of affairs must be done away with, and it is still as true as ever it was that China must assume the duty of policing her own river. She has at Whampon what is declared to be a suitable flotilla and there are men capable of undertaking the task. The matter is one to which the Hougkong General Chamber of Commerce might well give a little attention, for Hongkong, it is not necessary to insist, is concerned very seriously in the question of piracy in the nearest inland waters of [31 | China. The Chamber can. of course, only make representations, but it is representations in the right quarters that are want ed.

The Post Office, which in the matter of delivery of mails has been much prompter during the past year than formerly, had a serious relapse into old ways yesterday. The Indus arrived in Hongkoug Harbour on Monday night. The bulk of the mail papers did not reach this office till 1:30 p.m. yesterday, in spite of frequent applications.

The Pa-ca-pin lottery at Macao was put up to auction on the 17th inst. and the monopoly was sold for \$145,200. As the last farmer of this monopoly only paid \$74,900, the Macao \$70,300. It is felt in Mucao that, with the increased revenues from such monopolies, those on the necessities of life might well be abolished.

One of the results of the recent habbub about Kelontan, says the Strait T. mes, is noticeable Hospital, to which he had been taken, at the mouth of the Kelantan River. The following is from the Straits Times of the 8th inst.:- Enquiry at the Chamber of Commerce in regard to the action that that Canton is absolutely paralysed. The Chinese, body has taken, or contemplates taking, in regard to the appointment of a Royal Commission, and the other dev lopments of the past in connection with the Currency Question. elicits the information that the Chamber has so far done nothing whatever. The British Post Office authorities do not at present consider it practicable to forward correspondence to the Far East by the Trans. Siberian route. A daring robbery by five Russians is reported from Port Arthur, on the premises of Messrs. The Japan Times contains a paragraph which will greatly interest somebody two bundred and fifty years hence. It states that the Dai-ichi Bank in Tokyo in 1900 received a deposit of 3,000 yen, which will remain fixed with acyears, the bank having contracted to pay at the end of that time the respectable sum of 1,209,411,179 yep.

With a view to the utilisation of the Siberian Railway for the transport of mails from Japan to Europe, the Yokohama Foreign Chamber of Commerce has been in correspondence with the Department of Communications in Tokyo, and the information obtained is that, though the Department is making investigations into the facilities offered by the Siberian Railway for the transmission of mails from Japan to Europel it is impossible at present to say when that route will-be availed of for the purpose.

Anti-plague inoculation operations are proceeding upon the whole very satisfactorily in the Punjab. Some fifteen thousand operations are now being done weekly, a number which is. likely to increase later on; when the disease again begins to make its presence felt. The only localities where it has caused anything of the nature of a scare have been risket and Julelum. Everywhere else the people have cordial spirit as being intended for their benefit, though the absence at the moment of virulent plague in their midst makes them somewhat Monday morning. careless of securing the protection which the treatment affords.

The transport was landed at Bremerhaven by the Pisa. Hamburg as, whose home pendant was reaching down from the maintap nearly to the surface of the water. The state of health of the men was good, so that only about 50 of them had to stay in the hospital for a few days, but the bulk of them went on the same day by rail. ## THE "INDRAPURA" FIRE.

Further particulars regarding the fire which broke out on the steamer Indrapura in Cosmo politan Docks on Sunday morning show that the outbreak could not have been caused by the proximity of fires for heating rivets, as the steel plates were being out out of the ship in the usual way and operations for the fitting in of new ones had not yet started. The origin of the fire therefore remains unexplained. That it was not extinguished earlier was due to the inflammable nature of the burning material, not to laxity in the adoption of measures for its subjugation, as four or five hoses were at work a very few minutes after the alarm was given. As a precautionary measure, a steam jet was welcomed the arrangements in an entirely fixed at the bulkhead whilst the water was being pumped out of the dock. The fire was extinguished; we are informed, early on

## ALLEGED ARMED ROBBERY.

Yesterday morning a report was made at the

Central Police Station that an armed robbery had been committed in Jervois Street about eight c'clock on the previous night. The circumstances related to the authorities showed that a gang of ten Chinamen, some of them armed with revolvers, entered a shop at 130 Jervois Street, where the fair is held at Chinese New Year, and, closing the doors, presented their weapons at the inmates and ordered them to be absolutely quiet. There were in the shop about ten people, fokis and their friends, and the robbers proceeded to bind them by the simple processed fastening their quenes together with a piece of wire, afterwards driving them into the cook-house at the back of the shop. When the lawbreakers had gone the prisoners ventured out from their place of captivity, and learnt on investigation that there had disappeared from waves over the Siamese Commissioner's residence 1873. #### NEW STEAMERS LAUNCHED.

Two very interesting functions, which boar practical testimony to the increasing importance of the Colony as a shipbuilding centre, took place on Monday, evening, when two steamers, which have been constructed at Samshubbo, were successfully launched.

At the invitation of the contractor, Mr. H. Carmichael, a number of guests, British and Chinese, assembled in the yard of Mr. Kwong Fuk Cheong, the builder, to witness the lannohings. The vessels were gracefully christened by Mrs. Carmichnel, and glided easily down the stays and entered the water amid the applaute of the Europeans and the shouts and crackers of the many Chinese.

The first vossel to be named was the M. Bisbec, and she promises when completed to be a very handsome little craft. The boat was built for the Shanghai Pilots' Association, and is named after the late well-known harbour master of that port: The A. M. Bisbee is 140 feet long by 24 feet beam, with a moulded depth of 13 feet, and a tonnage roughly of 500. The engines are compound surface condensing, 15 and 31, with a stroke of 21 inches. The boilers are 9 feet 6 inches in dismeter, and 10 feet long, and were built under the supervision of Lloyds, Glasgow She is built of teak and is specially fitted with Rubino, who discharged three shots, striking a patent steam-winch for hoisting boats, and Hull's palent unchors.

Captain Hjousbery was present on bahalf of the Shanghai Pilots' Association; but it fell to the lot of Mr. A. Sinclair, superintendent engineer of Indo China Steam Navigation Co., Ld., to express the gratitude of the Association to Mr. Carmichiel for the successful result of his work up to the present stage. Mr. Sinclair said that, as far as he was aware, the Shanghai Pilots of would be the first in the East to own conjointly asteam pilot-boat, and the A. M. Bisbee was built as a sea going boat and would enable the pilots to cruise a considerable distance from the mouths meet incoming steamers, as at present in their small sailing vessels with very limited accommodation they were unable to go and to remain far out He complimented Mr. Carmichael on his work and felt quite sure that when the pilots gaw their new steamer they would feel very proud of it, and would appreciate the handsome accommodation it would afford them.

The second steamer launched was named the San Chang, which has been constructed for the Henng Kong Steamboat Uc., Ld., of Connaught Road Central. This is a much larger vessel than the plict-boat, being built for the Hongkong-Canton passenger trade. It is interesting to note, as the secretary was very proud to state, that it is the largest boat built in Hongkong by Chinese, under English supervision, for a Chinese company. The San Cheung is 200 ft. long, 33 ft. beam, 10 ft. deep, and is of about 1,5 d tons. When finished five weeks hence she will possess ample passenger accommodation. She is fitted with twin-screw engines, with cylinders 14 ft. by 28 ft. and two boilers, ?

After the vessels had entered the water, the par, y adjourned to the workshop, a s co.ou of which had been set apart for refragginguitatenmerous toaste were proposed, wishing prosperity to the two boxts, their contractor. builder and owners. AN EXTRADITION CASE. In the matter of Liu Taz, alias Lui Sze alias Ton Tro, and the Chinese Extradition Ordinance.

Mr. H. E. Pollock, K.C. (instructed by Mr. G. K. Hall Brutton, of Mesers. Moursey and Brutton, solicitors), appeared in support of an application for a writ of habeas corpus, The man Lin Taz, he said, had been charged before the Acting Assistant Magistrate with an offence against the laws of China, and an order for his extradition had been granted. Under section 11 of the Chinese Extradition Ordinance, 26 of 1889, it was provided that a person to be extradited should not be surrendered until 15 day's after committal, up till which time he had the right to apply to the Supreme Court for a writ of habeas corpus. The order of the Magistrate was made on the 4th of this month and therefore the 15 days were now about expired. The party who was moving in the matter was a brother of the man who was now in prison, and was not in Hongkong when these proceed ings were before the Magistrate. The reasons for the application being made were, first, as would appear from the affidavit, that the wrong party had been got hold of, and, secondly, they generally submitted that it was clear upon the face of the depositions taken by the Magistrate that sufficient enquiry had not been made into the facts of the case to justify a committal. There was a very considerable interval of nearly three years between the time of the robbery and the time of the arrest, the crime having been committed on 15th September. 1899. The man had been in China for 32 years. His Lordship said he did not see why a man who had been in China for all that time should

object to being sent to be tried by the laws of his own country. Mr. Pollock remarked that there was a very good reason in this case, as the man was reformer. There was considerable doubt therefore whother he would meet with justice at the hands of the Chinese authorities. With regard to his identification the man was a hunchback. a fact which did away with all identification. All that was to be done was for the Chinese mandarla to say to the witnesses, " There is a reward offered for the unest of the robbers of our slop; now there is a man down is Hong. kong whom we want arrested: go down and identify him; you will easily know him, for he

SOUTH AFRICA. ME. CHAMBERLAIN'S VISIT.

London, 1st November. Mr. Chamberlain's supporters are organising magnificent send-off in Birmingham before he proceeds on his South Africa tour. The proceedings will include a non-political banquet and a terchlight procession. Birmingham Liberals have decided to participate in the banquet

Sir H. Compbell-Bannerman, speaking at Ayr on Welnesday, said that he regarded Mr. Chambellin's tour with the greatest satisfaction. There is a hostile feeling among the extreme Radicals, who object to the employment of a cruser, as it gives an air of militarism to 3rd November.

Mr. Chamberlain reaches Durban at the end of November, After a stay in Natal he goes to Pretria. Reuter is informed that Mr. Chamberlain hopes for the greatest advantage from the tour. He will be frank, and there will be confidential discussion with repre-entative men of all classes, races and politics. He is desirous of avoiding public functions as the tour is for business, not for show. . DR WET'S DEPARTURE.

London, 1st November. There was little demo stration on General De We's departure to-day for South Africa. London, 1st November. Replying to a deputuation of Indians and Member of Parliament regarding the grievances of Indiana in south Africa, especially in the Transvanl and the Orange River Colony, Lord Humilton said a relaxation of the restrictions was contemplated in South Africa. The Indians were fairly entitled to better treatment? but patience and tact were necessary.

Lord Hamilton's roply was strongly worded and suggested a possibility of the stopping of the emigration of coolies to Natal. The forthcoming Durbar, to which the representatives of self-governing colonies are invited, would conrince the latter that it is unjustifiable to treat Indianslike other coloured races.

FOOCHOW.

The following items are from the Foochow Echo of the 8th inst .:-H. M. cruiser Algerine arrived at Pagoda Anchorage on the 3rd instant and will probab'y stay until the 11th instant.

Monday, the 3rd inst., being the anniversary of the birthday of the Emperor of Japan, was given over to rejoicing by His Imperial Majes. ty's loyal subjects in Foochow as elsewhere. During the morning of that day the Chinese officials were hospitably entertained at the Japanese Consulate. The bouse and grounds were tastefully decorated and daylight fireworks were exhibited. A reception was held by Mr. and Mrs. Teshima at 9 o'clock which was vory largely attended, those assembled including the various Consuls, the captain of H.M.S. Algerise and the captain and officers of H.I.J.M.'s Chihaya, who came up to Foochow after elebrating the occasion with due honours on board the cruiser at Pagoda. The Consulate grounds were bright with effective adornments of multicoloured lanterns. A brilliant display of fireworks entertained the guests; a special feature remarked was the crest of the Mikado in vivid and rapidly varying colourings. The band, but for the occasion by HE, the Viceroy. played selections and performed for the dance programme. Refrashments were provided on a lavish scale, a sumptuous supper was served in three rooms soon after eleven, and while it was in progress the guests were enlivened the stains of the various national anthems. rendered by the Chinese band. hospitable efforts of His Imperial Majesty's Consul and Mrs. Teshima were rewarded by an unparalleled success, and they were good enough to continue their kindness on the following day when all the Japanese res. ents were received at the Consulate. On Thursday, the 6th inst., the captain and officers of H.I.J. M. Chilwya returned the civilities shows them in Foschow. An "At Home" was held on board the cruiser and many friends and

visitor were most kindly entertained. A cricket match was played on the 7th between H.M.S. Algerine and the Foochow C. C. Owing to the lateness of the hour of commencing there was only time for one innings for each side. Foochow was victorious, with a score [2945-1 of 150 against the 111 made by the cruiser's

spectators. At the Foorkow Gun Club's monthly Cup competition Mr. Oswald won with a score of 18. Mr. Skens Knor was only three behind, and at

one time looked like pressing the winner hard. The play of the tennis tournament arranged to commence this week has been somewhat delayed owing in the first place to heavy rain and secondly to the arrival of H. M. S. Algerine and the consequent cricket match on Thursday. No matches in the mixed doubles have yet been played, but in the men's doubles Messrs. Gracey and Kovalsky best Messrs. Moss and Martzinkevich, while Mr. Richards and Dr. Davenport The Transvaal Fifteen, in their match were put out by Mr. Schlee and Rev. Simester, and Messrs. Macricar and Ardron by Messrs.
